

**Tenured Faculty Position – Associate/Full Professor**  
**Department of Neurology, Wayne State University School of Medicine**

The Department of Neurology at the Wayne State University School of Medicine invites applications for a tenured faculty position at the rank of Associate or Full Professor and appointment as the **Endow Parker Webber Chair in Neurology**. We are seeking faculty candidates with a strong record of neuroscience research achievement and extramural funding with focus in **neuroimmunology, neurodegenerative disease, or related programs**. For candidates with the appropriate research focus, there is also the possibility of a joint appointment in the **Center for Molecular Medicine and Genetics**.

**Position Summaries and Duties:**

- Conduct a nationally and internationally recognized, extramurally funded research program in neuroimmunology, neurodegeneration, or related disciplines.
- Maintain an active record of peer-reviewed publications in high-impact journals.
- Provide mentorship to junior faculty, postdoctoral fellows, graduate students, residents, and medical students.
- Contribute to departmental teaching and service missions.
- Collaborate with multidisciplinary teams across the university to strengthen neuroscience research.

**Preferred Qualifications:**

- Ph.D., M.D., or M.D./Ph.D. degree.
- Established track record of sustained extramural funding.
- Strong record of scholarship and academic productivity over the past 5 years.
- Evidence of successful mentorship in research and/or clinical settings.
- Leadership experience in academic or scientific organizations.
- Experience with center or program project grants is highly desirable.

**Collaborative Opportunities:**

- Engage with the Translational Neuroscience Program at Wayne State University, a multidisciplinary research initiative that bridges basic science and clinical investigation.
- Collaborate with several neuroscience programs within the faculty from Neurology, Neurosurgery, Radiology, Psychiatry and Behavioral Neurosciences, Pharmacology, and the Institute of Environmental Health Sciences, among others.
- Access to outstanding shared core research facilities, advanced imaging resources, molecular and genomic cores, and translational partnerships that foster innovative neuroscience discovery and application.

**Compensation and Support:**

This is a full-time, tenured position with a competitive start-up package and research support.

**Application Process:**

Interested candidates should submit a curriculum vitae, statement of research plan, and statement of teaching philosophy.
